IRI Voracity on OCI & Autonomous: Simplifying Data Management & Our Business

David Friedland, SVP IRI, The CoSort Company

Oracle Global Leaders Event, Miami Jan 22-23rd 2020

Selected Customers

About IRI, The CoSort Company

Melbourne, FL data management ISV specializing in fast, big data manipulation & security, w/wo Hadoop.

Silver level Oracle Partner. Global users & channels.

Renown since 1978 for JCL sort & data **migration**, DB/DW/BI **acceleration**, PII **masking** & test data.

IRI Partnership with Oracle

- Our customers are asking for PaaS-native solution options.
- No one wants to be in the business of managing data centers.
- Increasing demand from cloud-minded customers who need high security, horizontal scalability, and ease of use.
- Today IRI products and the Voracity platform are only available on-premise or in customer-managed Cloud VM's
- We're partnering to create Voracity-based *PaaS* solutions in Oracle Cloud Infrastructure + Autonomous Linux + Autonomous Database

Outcomes for IRI & Oracle Customers

Reduce costs while reducing data risk Move from administration to innovation Increase productivity to drive business growth New ways to deliver apps, services and experiences Scale on demand. Pay for what you use.

IT Needs (Unburdening)

70%

of time spent on maintenance; IT is unable to keep up 39%

of DBAs handle 50 or more databases

95%

of DBAs are still creating and updating databases manually

Implement emerging technologies to help the business innovate Ensure performance SLAs, Security, Regulatory Compliance & Availability Safeguard data so it can be trusted and accessed to get insight

LOB Needs (Analytics)

75%

of time spent in analytics by 2020 compared to 25% in 2015

Finance

Cut costs, optimize spend,

track key business metrics

with rapid insights

375%

increase in analytics spending by marketers since 2017

Marketing

Use improved customer

insights and track

demand gen

4x

faster quota attainment by sales teams that use analytics

Sales

Ensure a constant 360 degree view of customer, bookings, pipeline

70%

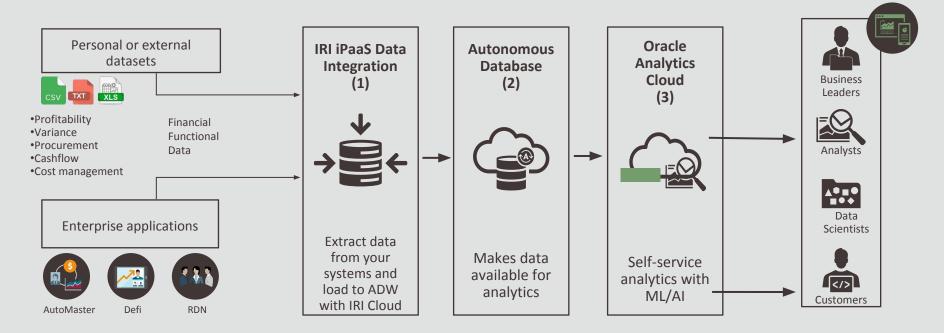

in the midst of major data projects for decision making

HR

Improve employee productivity, performance. Track budget and recruiting

Voracity iPaaS / Data Wrangling in Oracle Cloud - Solution Architecture

Business Benefits - IRI Voracity on Oracle Cloud

- Reduce TCO up to 50% moving to cloud
- Deploy IRI technology in hours not weeks
- Superior performance backed by SLAs
- No single point of failure
- OCI credits provide a flexible consumption model
- 2-10x faster reporting speeds

Oracle Cloud Infrastructure - FastConnect

- Easy, Elastic, and Economical way to create a dedicated and private connection which is consistently fast
- Get a reliable and 'big data' network experience compared to internet-based connections
- No outbound data fees when paired with FastConnect

OCI Compliance: Current Audit Programs

Data Masking & Risk Scoring

IRI DMaaS

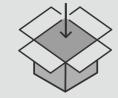

IRI DQaaS Data Quality & Unification

IRI TDaaS *Test Data* Synthesis IRI BDaaS Big Data Package/Provision IRI MaaS Data/DB Migration

Extracting data from your systems and loading to ADW via Voracity ETL in OCI Gen 2 Cloud.

Connecting, classifying, searching, de-identifying and auditing PII in RDB and NoSQL DBs, images, files & faces.

Validating, filtering, cleansing, enriching, standardizing and reconciling data and master data. Using DDL and file metadata to create structurally and referentially correct test data from scratch. Integrating, cleansing, and masking with or without Hadoop to wrangle data for analytics.

Extracting file or DB data from legacy systems and converting it for use in new DBs or apps.

Thank you.

APPENDIX

IRI Solution Software and OCI Configurations

for

Oracle Data Administrators and Data Professionals

More on IRI and Voracity

- Named a 'top big data provider' by CIO Review & Insights Success
- Dubbed a Production Analytic Platform by Dr. Barry Devlin
- Covered by the BBBT
- Listed in 100 Most Important Companies in Data AND Trendsetting Products by DBTA
- Followed by Gartner & IDC in data integration and masking markets
- Featured in M&M global market forecast reports on:

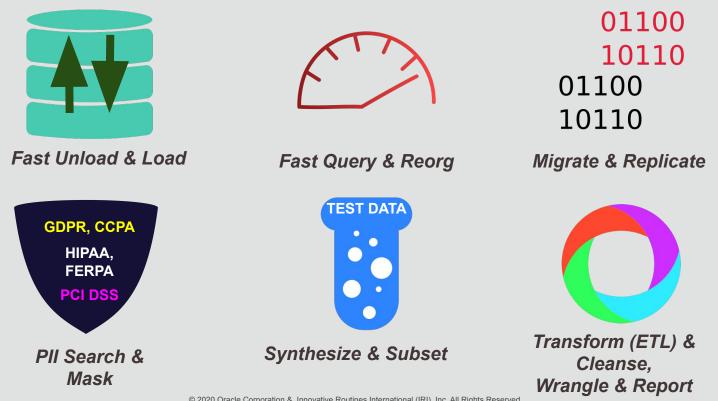

Data Classification, Data Governance, and Big Data as a Service

IRI USPs:

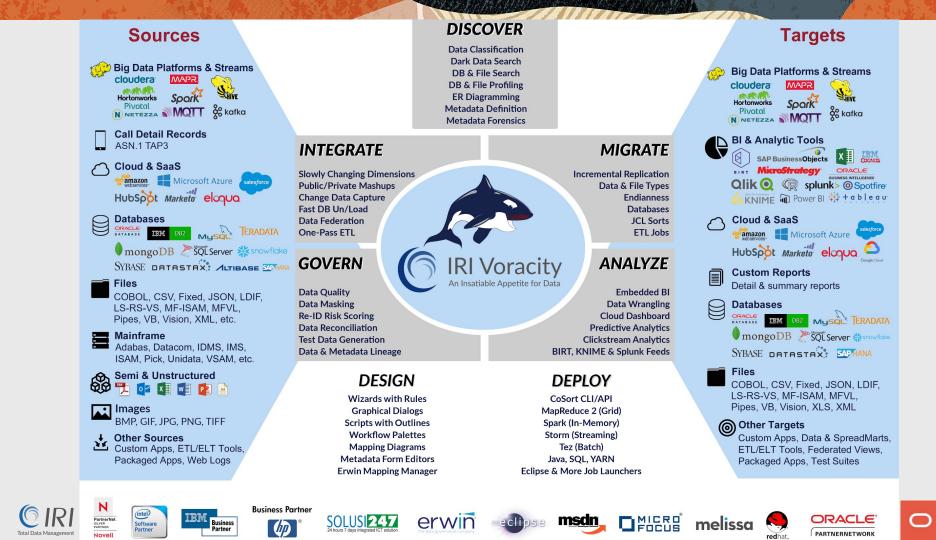

- Best ETL industry price-performance ratio
- Multi-source PII classify/search/de-ID functionality
- Included DQ, BI, CDC, IoT, and test data capabilities
- Seamless/no-code Hadoop executions
- Supports all RDBs, LUW flavors + erwin, Splunk, KNIME

Fit-for-purpose IRI software products -- or their wizards in Voracity, backed by IRI <u>services</u> -- propel, protect, and prototype Oracle **DB**, **ODI & DV** <u>ops</u>. These will be available as ad hoc or bundled *PaaS* options in OCI in 2020.

IRI Data Manager Suite

Speed or replace legacy sorts, and batch/ETL/SQL transforms

- Filter, join, aggregate, pivot, cleanse, lookup, calc, etc.
- Map, migrate, federate, and replicate data from 150 sources
- Segment data, capture changes, report details / summaries
- Analyze changing dimensions, support complex transforms

Speed RDBMS unloads for archival, migration, reorg, and ETL

- Extract tables to flat files in parallel using SQL queries
- Convert and re-format to change data types and layouts
- Create the data definitions for IRI software and DB loads
- Pipe to CoSort and DB loaders for faster reorg and ETL

Unlock data and move between apps, DBs, and platforms

- Convert, federate, remap, and replicate legacy data
- Migrate data between databases and create new tables
- Change file formats, data types, and endian conditions
- · Find, extract, and structure data in unstructured sources

Prototype DBs and ETL, stress-test, outsource, benchmark

- Use real data models and formats, not production data
- Combine generation and selection, create new formats
- Preserve referential integrity and frequency distributions
- Feed test DBs, files, and custom reports simultaneously

IRI Voracity

Consolidate tools and tasks to process, protect, prototype, present

- Discover, define, and manage data in legacy and new sources
- Combine data integration, migration, governance, and analytics
- Exploit CoSort and Hadoop engines for optimum throughput
- · Leverage Eclipse familiarity, functionality, and extensibility

© 2019 Innovative Routines International (IRI), Inc. All Rights Reserved. CoSort, Voracity, NextForm, DarkShield, FieldShield, CellShield, and RowGen are trademarks or registered trademarks of IRI. FACT is a trademark of DataStreams Corp. All other product, brand, or company names may be (registered) trademarks of their respective holders.

IRI Data Protector Suite

Comply with privacy laws, nullify breaches, and govern data

- Search, profile, and classify sensitive data in DBs and files
- Encrypt, hash, redact, pseudonymize, randomize, tokenize
- Apply cross-table rules to save time and referential integrity
- Score re-ID risk and audit your jobs to verify compliance

Profile and de-identify PAN/PHI/PII in Excel spreadsheets

- Define or re-use patterns to search for sensitive data
- Locate, report, and open all found ranges in the LAN
- Click to encrypt, mask, or pseudonymize data directly
- Auto-log protections to verify privacy law compliance

Discover, deliver, and delete sensitive information in dark files

- Classify PII and search LAN-wide using different methods
- Simultaneously de-identify, remove, or report those values
- Comply with the right to erasure, portability, or rectification
- Query, analyze, and format job results for audit and display

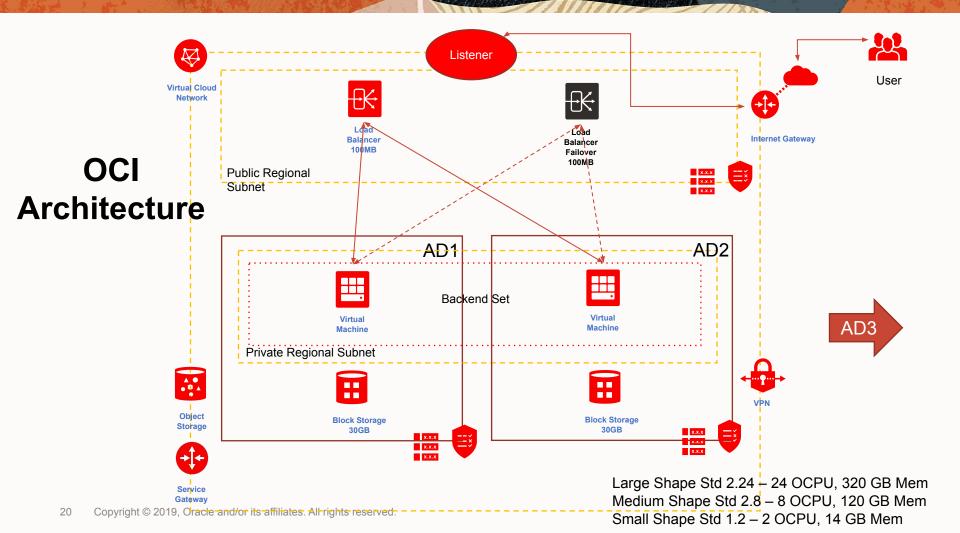

IRI DMaaS Data Masking as a Service

Leverage expert data privacy engineers to find and mask PII

- Avoid learning curves, software expenses and staff diversion
- Reduce risk by agreement, monitored VPN, or secure cloud
- Use operational logs for reporting and compliance audits
- Select from competitive hourly, daily or project rates

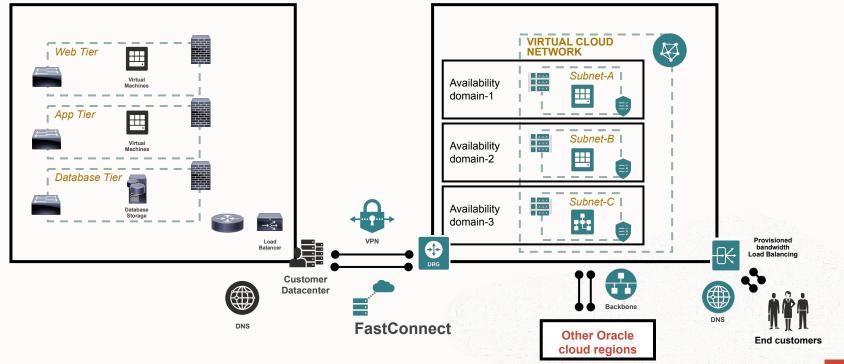

OCI Networking Flexibility and Control
